RUSSIAN EMPEROR IN FAVOR OF PEACE

War Party, However, Hopes He Will Continue Struggle.

JAPANESE TERMS ARE UNKNOWN

Plenipotentiaries May Meet Upon the Battlefield in Manchuria to Discuss Articles of Peace—England Satisfied With Roosevelt's Acts.

St. Petersburg, June 9.—11:35 a. m.—The government is plainly preparing the public for the announcement that the emperor has decided to conclude peace and that the negotiations have begun by permiting the publication of all the foreign dispatches bearing on the subject. The newspapers and the Russian public have until now only had a suspicion that important moves were going on behind the scenes. In well informed circles it is believed that Japan already has instructed Field Marshal Oyama to stay his hand pending the resut of the present tentative negotiations and that General Linevitch also has been confidentially advised of the situation. Nevertheless the irreconciliable remnants of the war party are believed to be urging the Russian commander-in-chief to assume the offensive in the hope of achieving a victory and thus change the emperor's present disposition in favor of the conclusion of hostilities.

If such an intrigue is in progress, it has no chance of success. It can be assumed that there will be no further bloodshed in Manchuria until the belligerents have decided whether it is now possible to agree on peace terms. The government in the present emergency is acting with great wisdom.

It is preparing to time the proclamation of a national assembly with the announcement that peace negotiations have begun. The committee of ministers is hurrying through its examination of the Bouligan rescript commissions project for the Gosdarstvennaia Duma, imperial duma, the plan already outlined in these dispatches, its consideration having commenced yesterday and continuing today. Practically no alterations are being made in the text and the Associated Press learns from a prominent Russian statesman conversant with the situation that the review of the Bouligan commission's project is purely formal as a manifesto promulgating a law giving the Russian people a voice in legislation is already drafted. The informant of the Associated Press claims to have seen the original and he expects the law to be proclaimed early next week.

Evidence accumulated that President Roosevelt's efforts on behalf of peace have been surropried practically by every European power by the transmission through their representatives that it is the solemn conviction of their respective governments that the time has arrived for the warring countries to conclude peace. The president's endeavor seems likely to bring the plenipotentiaries of Russia and Japan together to arrange the preliminary terms for the conclusion of a limited armistice and the selection fo place for the fuure negotiations and plenipotentiaries in the opinon of diplomats will make the next as it is not believed Japan will her terms until the plenipo- ries meets The ambassador of the great European powers od the opinion to the Associat- that the exchanges would not her at Washington or at any capital, but upon the battle- anchuria.

ssia and Japan desire to gotiations direct, said dor. Where is there a than Manchuria, which is sphere of outside influ- ractically neutral territory trict communication with ive" capitals" Linevitch confronting each other where they are found the preliminaries. Once uciples as to the indem- s of Sakhalin and Vlad- ivostok and the question of the Russian ships in neutral waters in the Far East are adjusted, all other questions could be easily settled.

Great Britain Satisfied.

London, June 9.—1:35 p. m.—Much satisfaction is expressed in official and diplomatic circles at the apparent success of President Roosevelt in bringing Russia and Japan together for the purpose of ending the war. Since his arrival here Whitelaw Reid, the American ambassador, has been in close and frequent communication with the foreign office. The ambassador is not willing at the present juncture to disclose the result of his visits, but apparently is well pleased with the progress of the negotiations as after a busy week socially and officially the ambassador and Mrs. and Miss Reid leave London tomorrow to spend the week-end with Earl Egerton, of Tatten, and his wife, the Duchess of Buckingham and Chandos at Tatten park, Knutsford Cheshire. The other embassies are without any information.

Russian official circles now think that peace is probable or at least that a cessation of hostilities is pending in an endeavor to bring about a meeting of representatives of the two powers.

It is pointed out in these circles that Russia first declared her preference to negotiating with Japan direct, and President Roosevelt aparently is acting on that line in aranging the formalities for a direct negotiation between Japan and Russia.

CZAR SENDS CONDOLENCE.

To Rojestvensky and His Men Who Suffered Defeat.

St. Petersburg, June 9.—4:20 p.m. Emperor Nicholas has cabled the following message to Admiral Rojestvensky:

"From my heart I thank you and all the officers of the squadron who have so honorably done their duty for your unselfish work for Russia and for me. By the will of the Almighty success was not destined to crown your endeavors, but your boundless bravery will always be a source of pride to the country.

"I wish you a speed recovery. May God console you all. (Signed) Nicholas."

The messages of Admiral Enquist and Captain Chagin of the Russian cruiser Almaz did not contain any intimation of misbehavior on the part of the officers or crew.

Skirmishes Are Reported.

Tokio, June 9, 9:30 a. m.—Army headquarters has given out the following:

A detachment of our forces which advanced from Lianshuichanan, two miles east of Chenchientsu, dislodging one company of foot and 50 horse of the enemy, holding the vicinity to the north of that place, at 3 o'clock on the morning of June 7, and occupied an eminence east of Chapengan and 4 miles northeast of Chenchengtsu.

At 6 o'clock on the same morning the enemy attempted an attack on Soufaumtai, 10 miles north of Changtu and on Taaotun, 5 miles west of Changtu, and on Shihitunti, 2 miles north of Taaotun.

All the attacks were repulsed.

Interning Russian Ships.

Washington, June 10.—Secretary Taft has received the following cablegram from Governor Wright at Manila:

"Russian warships did not leave the harbor within the required 24 hours; as a result, are now in custody of Admiral Train who informs me he has taken necessary steps to intern them. They are now behind breakwater under the guns of the Ohio and Monadnock. He will disable their machinery and remove the breech blocks of the guns. He has doubtless reported full details to navy department."

Charged with Conspiracy.

St. Paul, Minn., June 10.—William T. Hofsnell, of St. Paul, and Royal B. Stearns, of Pierre, S. D., were arraigned before the United States circuit court today and charged with conspiracy to defraud the United States out of homestead lands. Both pleaded not guilty.

EMPLOYERS REFUSE NEW CONFERENCE

Strikers Must Accept Their Terms Or Nothing.

BOTH SIDES ARE STANDING FIRM

Employers Claim They Can Bring Enough Men to Chicago to Operate Their Teams—Garment Workers' Union Enter Complaint.

Chicago, June 10.—That the teamsters must meet all of the conditions laid down by the employers or declare the strike off with out making any settlement now seems, from the employers' standpoint, to be the logical outcome of the struggle.

Another attempt to arrange for a new peace conference has resulted in a reiteration by the employers that they will make no further concession. A general meeting of the Chicago Team Owners' association will be held tomorrow night to vote on the proposition to deliver to the strike affected houses. An affirmative decision would precipitate a walk out of 8,000 teamsters.

Announcement was made today by the employers' team company that men were reporting daily to its agents in seven cities and that it would be possible to rush to Chicago 40[illegible] men a day in the event of a further extension of the strike.

The garment workers, the original cause of the present strike, have come to the definite conclusion that the teamsters have forgotten the "sympathy" which two months ago prompted them to strike in aid of the tailors. At a meeting of all the special order of locals, the following was given out:

"Resolved that in the event of the Teamsters' union calling off their strike in the absence of this organization that such action shall not terminate in any way the struggle which the garment workers are carrying on against the national wholesale tailors' association, unless the teamsters' settlement carries with it a satisfactory settlement of the garment workers' question."

George J. Jackson, a tally man employed by a lumber company, has been attacked by three "union sluggers" and probably fatally injured. His assailants, who escaped, accused him of being a strike-breaker.

SUBWAY TO HANDLE FREIGHT.

Chicago Street Railways Plan to Profit by Teamsters' Strike.

Chicago, June 10—By the last of August the Chicago subway company will be handling freight to and from practically all the railroad terminals of Chicago. Work on the bore is being rushed day and night, an added impetus having been given by the teamsters' strike.

A remarkable record in tunnel construction has been made to last two months, more than 5 miles of underground passage having been finished.

The strike began just before this period of unusual activity. In the last two months 60,000 cubic yards of material have been excavated. The concrete hauled through the tunnels to finish the new workings amounted to 25,000 cubic yards.

The company has now nearly 32 miles of bore, interlacing the district bounded by Twelfth and Halsted street, Chicago avenue and the lake. This is being equipped with trolley wires and laid with heavy rails for the use of the electric road on which the merchandise will be carried 40 feet beneath the level of the city's streets.

Torpedo Boat to Carry Remains.

Paris, June 9, 1:20 p. m.—The French government has indicated its willingness to assign a torpedo boat to carry the boddy of Paul Jones down the river Seine from Paris to Havre where a French squadron will deliver the body to the American squadron. This will necessitate a change in the rendezvous of the American squadron from Cherbourg to Havre, which is now under consideration.

ROOSEVELT VISITS VIRGINIA.

Accompanied by His Wife on a Short Pleasure Trip.

Washington, June 10.—President Roosevelt left Washington at 11:16 a. m. today on a brief trip to Rapidan, Va., where he will be the guest of Joseph Wilmer, an old friend of himself and Mrs. Roosevelt. Mrs. Roosevelt, who recently purchased a tract of 20 acres of land adjoining Wilmer's farm, left here yesterday for the Wilmer home. The president and Mrs. Roosevelt will remain there probably until Sunday night or Monday morning unless the president's presence in Washington should become necessary before that time as a matter of urgency.

The president left Washington on a regular train of the Southern railway. He was accompanied only by M. A. Latta, his personal stenographer, and Frank H. Tyree, one of the secret service officers stationed at the White House. The president traveled in a regular Pullman car instead of in a private car.

Both Secretary Loeb and Assistant Secretary Barnes remained here to transact any business that may arise.

The children of the president left for Connecticut on a brief visit to friends prior to going to Oyster Bay for the summer.

INMATE OF ALMSHOUSE STRIKE.

They Wanted Pay for Working as Bakers in the Home.

New York, June 10.—Considerable merriment has been caused by a strike of paupers in a county almshouse just outside Jersey City. The men detailed to act as bakers organized and elected a walking delegate who notified the county board in charge of the institution that his fellows would not knead the almshouse dough until their names were put on the pay roll with the attendants and other employes.

The delegate explained to the committee that the bakers were entitled to pay because, unlike many other paupers, they do not desert the institution during the summer months to recuperate at the seashore and in the mountains, but remain at their duties in the bakershop and work faithfully for the county. The committee rejected the demands and informed the strikers that they would be put to work in the stone quarries if they do not return to work in the bakeshop.

English Lawyer Under Serious Charge.

London, June 10.—The further hearing of the charge against Alfred Fossick, a lawyer of Mainhead, Berkshire (charged with misappropriating $60,000) and who, according to a statement made in court by counsel for the plaintiff in the case informed plaintiffs counsel that he had lent the money to Mrs. James Brown Potter, ocurred today. Mrs. Potter testified that Fossick as her lawyer, undertook to raise from his clients a $45,000 mortgage on her property at Maidenhead. The money was required to conduct the Savoy theatre. Mrs. Potter never knew that Fossick personally was advancing the funds.

Two Dead in Old Well.

Marion, O., June 10.—George Kraner, a prosperous farmer, living two miles southeast of Adelade, went down into an old well to clean it out. He was overcome by gas, and, alarmed at his absence, his daughter-in-law, Mrs. Benjamin Kraner, started a search, which ended in her finding his body at the bottom of the well. She immediately started to descend, but missed a footing and was precipitated to the bottom, sustaining a broken neck and dying instantly. The bodies lay at the bottom of the well for two hours, when they were discovered by Benjamin Kraner and Harry Winters.

Church Wants Divorce Reform.

Asbury Park, N. Y., June 10.—The several synod of the reformed church in America adopted a resolution indorsing reform in divorce and enjoining its ministers against marrying persons who had been divorced on other than Scriptural grounds. According to the rule established by the synod only the person securing the divorce shall be deemed fit to remarry and then only after a year has elapsed.

NORWEGIANS HOIST TRI-COLOR BANNER

Flag of Norway Now Floats Over Public Buildings.

BANDS PLAYED NATIONAL AIRS

The Lowering of the Flag of the Union of Norway and Sweden Announces Dissolution—Storthing Receives the Congratulations from Nations.

Christiana, June 10.—The Norwegian tri-color was hoisted today over Akershus forth and throughout the country in place of the union flag. The substitution was attended by great ceremony at the fort where the members of the Storthing and 30,000 of the public were assembled. The garrison was paraded in front of the quarters of the commandant of the fort, and the commandant read the resolution of the storthing dissolving the union with Sweden.

As the clock in the tower of the fort chimed ten the union flag which had floated there since 1814, was hauled down, the troops presented arms, the band played the patriotic air, "Sons of Norway," and after only a momentary interim the first gun of a national salute boomed out the new flag was broken out and the troops again presented arms.

The people then uncovered and cheered. The band swelled the enthusiasm by playing the popular air, "Yes, We Love the Country." First one and then another took up the words of the song until the whole crowd joined in, after which round after round of cheering again greeted the flag. Three cheers were next given for the fatherland and the singing of the national anthem concluded the ceremony.

Baron Von Wedel-Jarisberg, who has been the minister of Sweden and Norway at Madrid, and who is a Norwegian, is leaving the Spanish capital today for Christiana. He has telegraphed and asked to be immediately relieved of the post owing to the dissolution of the union. His example will be followed by the ministers at Washington and Rome, both of whom are Norwegians.

The government of Norway and the storthing continue to receive from all parts of the country expressions of gratitude for their action, and the communal authorities are voting addresses approving the new regime.

A telegram from Bjornstjorne-Bjornson (the Norwegian dramatist) published here today sums up the popular feeling as follows:

The address to the king is an expression of the will of the entire Norwegian people. The dissolution of the union is a blessing for the entire north.

He served several terms in the legislature, was a brilliant man, a confederate veteran and commander of Camp Jones, U. C. V.

The donation was given without any restrictions as to its use.

FROM EXCITEMENT TO HAPPINESS

Was the Experience of Will Clark of High Springs.

COMPELLED TO KILL TWO MEN

To Protect His Own Life, Because He Had Spirited Away the Girl He Loved and Intended to Marry—Was Vindicated and Wed.

From the scene of a most exciting tragedy in which he was compelled to take the lives of two fellow-men in self-defense, from the embarrassing conditions which naturally follow such a deed, to the matrimonial altar, all in the short space of a few days, is the interesting experience of Will Clark of High Springs and one which he cannot forget, as it involved all that was dear to him.

Will Clarke was engaged to a Miss Mizelle—a handsome, fascinating young lady with cheeks as crimson as the summer rose and eyes as bright and sparkling as the morning dew—against the will of her uncle, I. L. Mizelle. There was no apparent reason for opposing the match, since young Clark was a moral young man; but at any rate the uncle objected, and it is said several times ordered him to cease his attention to the girl. Love and determination, however, went hand in hand, and it was arranged that Mr. Clark should take the young lady to relatives in Fort White, return for a license and marry the young lady. He did accompany her to Fort White, but upon returning to High Springs in company with another man he was met by Mizelle and his stepson, Pete Reddick, who informed him that they were looking for him and proposed to beat him to death. They dragged him from the buggy and proceeded to carry out their threat, and in the scuffle Clark managed to get hold of Mizelle's pistol, with which he killed both Mizelle and Reddick instantly.

Clark proceeded to High Springs, where he wired the sheriff of Columbia, in which county the tragedy occurred, that he was ready to surrender. He was taken into custody, but a trial by the court gave him his freedom and the following day he was married to the little woman who had been true to him to the last.

Mr. and Mrs. Clark are residing in High Springs, where they are quite popular and have many friends.

THE STATE UNIVERSITY.

A Pointed Reply to The Lake City Index Item.

The following item from The Lake City Index is replied to by a communication in The Palatka Times-Herald, which we publish below:

The people of Lake City owe a debt of gratitude to Senators Gillen and Adams for the successful fight they made for the University which they can never repay.—Lake City Index.

We have known for years of the existence in Lake City of factions, political divisions, strifes, and betimes disgusting scandals in connection with her school interests. The public generally has been apprised that a large part of the community were not in sympathy with the State University.

But with all this before us, we were not prepared for the above statement on the part of The Index. Senators Gillen and Adams voted for the bill that in one fell blow abolished the University of Florida located at Lake City, and The Index says that the people of Lake City owe a debt of gratitude to these gentlemen for their successful fight.

Is this a confession that the University is obnoxious to the people of Lake City? That they do not want a State institution of learning in their midst? What other interpretation can be given to these words?

Perhaps this is the method that they have adopted to serve notice on the board of trustees provided for in the Buckman bill, that they do not desire the new University to be placed there; that they feel grateful that the old one has been abolished and don't care to be annoyed with another? Certainly the board of trustees will not attempt to force upon the people of Lake City an institution that they do not want.

No school can thrive in an antagonized atmosphere. The establishment of a university is a momentous undertaking. The social, political, moral, religious and intellectual environment should all be favorable to its growth and development.

Let the board consider well the surroundings before fixing upon a location for the State University. A. C.

Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes, day and night, and passed a brick-dust substance, and sometimes a slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure." J. W. McCollum & Co.

SCROFULA A Disease We Inherit

The tainted blood of ancestors lays upon the shoulders of innocent offspring untold suffering by transmitting to them, through the blood, that blighting disease Scrofula; for in nearly every instance the disease can be traced to some family blood trouble, or blood-kin marriage which is contrary to the laws of nature. Swelling, ulcerating glands of the neck, catarrh, weak eyes, sores, abscesses, skin eruptions, white swelling, hip disease and other deformities, with a wasting of the natural strength and vitality, are some of the ways this miserable disease manifests itself. The poison transmitted through the blood pollutes and weakens that health-sustaining fluid and in place of its nutritive qualities fills the circulation with scrofulous matter and tubercular deposits, often resulting in consumption. A disease which has been in the family blood for generations, perhaps, or at least since the birth of the sufferer, requires constitutional treatment. S. S. S. is the remedy best fitted for this. It cleanses the blood of all scrofulous and tuberculous poisons, makes it rich and pure and under the tonic effects of this great blood medicine the general health improves, the symptoms all pass away, there is a sure return to health, the disease is cured permanently while posterity is protected. Book on the blood and any advice wished, furnished by our physicians, without charge.

Scrofula appeared on the head of my little grandchild when only 18 months old, and spread rapidly over her body. The disease next attacked the eyes and we feared she would lose her sight. It was then that we decided to try S. S. S. That medicine at once made a speedy and complete cure. She is now a young lady, and has never had a sign of the disease to return. 150 S. 5th St., Salina, Kan. MRS. R. BERELY.

Welch having failed to produce the amount of the bond, was brought to this city and placed in prison.

In the Mayor's Court.

The mayor's court was rather interesting Saturday, since there was an unusually heavy docket, and the cases were of some gravity.

Sadie Robertson, charged with disorderly conduct and fighting, was fined $10 and costs. The defendant in a row a few nights ago stabbed Ethel Phillips in several places, inflicting painful but not serious wounds.

Asa Baily, charged as an accessory in the above case, was discharged. It was alleged that he loaned the Robertson woman the knife with which to do the cutting, but this was not proved.

W. W. Cary was fined $5 and costs for disorderly conduct.

Will Strobhar, charged with disorderly conduct and fighting, was fined $10 and costs. It will be remembered that Strobhar was the man who cut Mallie Brooks in a street row Friday morning. He stated that Brooks called him a name which would not look well in print, when he proceeded to carve him. Brooks was also arraigned for disorderly conduct and fighting, and was let down by a fine of $2 50 and costs.

WINDSOR NOTES.

Little Girl Bitten by an Alligator—Crops Good—Other Matters.

Windsor, June 10.—Crops are looking fin', notwithstanding the severe drouth. However, if rain does not come soon there is going to be a short crop of corn

Mr. Torode is building quite a large pinery. Very fine pineapples have been raised in this section and we hope Mr. Torode's venture will prove a financial success.

Messrs. M. J. Beckham, C. R. Spivey, Gus Ormond and Will Beckham took in the excursion to Tampa.

Hon. J. A. Rosborough has returned from Tallahassee. We are all glad to have him with us again.

Mrs. Mary Edwards and some friends from Gainesville are spending a short time here.

D. M. Phifer of Gainesville, with two friends, were looking at Windsor real estate the other day.

Mrs. E. M. Munsinger is having an addition put to her house.

Mr. Parks of Philadelphia is having a new roof put on his house here.

Quite a lot of blueberries are being brought in here.

People in the vicinity of Moccasin Bend report crops good, but say a little rain would do no harm just now.

The people of Windsor will have a union Sunday school picnic on the corner of Green street and Orange avenue Tuesday, July 4th. All friends are cordially invited to come and spend a pleasant day.

Berry pickers had better keep one eye open for rattlesnakes and 'gators these days. Last week a little girl while picking berries not far from Rochelle was caught by an alligator and quite severely bitten. The fact of the 'gator being only three or four feet long is all that saved her from being very seriously if not fatally injured.

Remains Were Shipped.

The remains of Mr. Robert H. Porter, the sudden death of whom occurred Thursday night, were shipped yesterday via the Seaboard Air Line to Grand Chain, Ill., where the interment will take place beside his parents. The remains will be accompanied by relatives.

The pall-bearers were C. Y. Crawford, W. R. McKinstry, S. J. Burnett, J. S. Goode, Nicholas Bures and Evans Haile. Quite a number of friends escorted the remains to the station.

The death of "Uncle Bob" removes from our city one of the oldest, most familiar and most popular landmarks, and it is the wish of his friends that he may sleep well in his far-off Illinois grave.

Col. T. V. Porter and W. K. Bartleson, who came here Friday, were with the remains.

A Few Palindromes.

"It is a fascinating occupation," said a philologist, "to search the language for palindromes. A palindrome is a word that reads the same backward as forward. Rotator, for instance, is a palindrome. Several hundreds of these strange words are tabulated, and new ones are continually turning up in the English tongue. If you can find one send it to the Palindrome society of New York.

"I can rattle off extempore a dozen or two palindromes. Thus:

"Bab, refer, bib, Anna, tot, bob, peep, civic, toot, dad, madam, deed, pup, deified, sees, dewed, tat, did, shahs, eve, reviver, ewe, rotator, gog, pop, gig, gag, rebbr, level, noon, Otto, sexes."—Philadelphia Bulletin.

Gambetta and Napoleon's Portrait.

When Gambetta, accompanied by Jules Favre, arrived in the hall of the Hotel de Ville, where he was officially to read the proclamation of the third French republic, the crowd which followed the two deputies caught sight of a fine portrait of Napoleon III. hanging on a wall. They promptly took it down and were about to smash it to pieces when Gambetta intervened. Turning the portrait to the wall, he said: "My friends, we have put up with the original for twenty years. Let us be content today to turn his face to the wall. It is all he deserves."

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness: in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

ORIGIN OF PIKE'S PEAK.

Indian Legend of the Formation of This Famous Mountain.

The quaint Indian legend of the formation of Pike's peak is as follows:

"At the beginning of all things the lesser spirits possessed the earth and dwelt near the banks of the great river. They had created a race of men to be their servants, but these men were far superior to the present inhabitants of the earth and made endless trouble for their creators. Therefore the lesser spirits resolved to destroy mankind and the earth itself, so they caused the great river to rise until it burst its banks and overwhelmed everything. They themselves took each a large portion of the best of the earth that they might create a new world and a quantity of maize, which had been their particular food, and returned to heaven. Arriving at the gate of heaven, which is at the end of the plains, where the sky and mountains meet, they were told that they could not bring such burdens of earth into heaven. Accordingly they dropped them all then and there. These falling masses made a great heap on the top of the world which extended far above the waters, and this is the origin of Pike's peak, which is thus shown to be directly under the gate of heaven. (It was formerly twice as high as now, but lost its summit, as is told in another legend.)

"The rock masses upon it and all about show that they have been dropped from the sky. The variety and extent of the mineral wealth in the region prove that the earth's choicest materials are deposited there. And still as the constellations move across the heavens and vanish above the mountain summits we may see the spirits rise from the great river and pass to the gate of heaven. The falling stars are their falling burdens or the dropping grains of maize."

Fresh Fruit.

"Gold in the morning, silver at noon and lead at night" is always used with reference to fruit. Most people think it means that the explanation of the proverb is that digestion is strongest in the morning and weakens as the day goes on. But you will note that the proverb refers to fruit alone. If it has to do with the digestive power only it should be applied to all foods. The real explanation is very different. It is that fruit freshly gathered is fitted for eating and lessens in value as the hours pass. That is true not of fruit only, but of all vegetables. That which comes direct from the garden to the table is the most palatable and in every way best fitted for consumption.

Deepest Haul Ever Made.

The deepest haul of a net ever made in the world was achieved by Americans off the Tonga islands, in the south Pacific. The trawl struck bottom 23,000 feet below the surface—that is considerably more than four miles down—but even at that depth animal life was found. Those strange beings lived in water whose temperature was constantly just above the freezing point and under a pressure of 9,000 pounds to the square inch. To sink that net and bring it back again took a whole day of steady labor.—St. Nicholas.

LOCATE IT AT GAINESVILLE.

Under the above heading the following editorial appears in The Punta Gorda Herald, from the pen of Editor Jordan, who some years ago was a resident of Gainesville, and in his editorial capacity became familiar with the workings of the Seminary and the people of this city:

"Editorial references to the Buckman bill and its results made in previous issues of The Herald were written when it was not known what Gainesville wanted in place of the East Florida Seminary, which is abolished by the bill. Now that Gainesville has announced her preference for the State University, The Herald cordially endorses her claim and calls upon all South Florida to rally as one man to her support.

"Gainesville has everything in her favor—central location, easy access from all quarters of the State, excellent health, moral atmosphere, no barrooms or saloons, plenty of well-supported churches. Her people are united and are thoroughly imbued with the educational spirit and they are prepared and willing to offer any inducements within reason to secure the location of the University.

"They already have the buildings of the East Florida Seminary, which, with some comparatively inexpensive additions, will prove adequate for the purpose.

"A man can live better and cheaper in Gainesville than in any other town of the State. Their beef is equal to the best Chicago article and is sold for less than the best Florida in any other market. Vegetables, fruits, poultry, eggs and almost all other provisions retail for less there than in any other town in Florida. Board, therefore, is very low; and if the authorities should carry on a boarding department in connection with the University, the student could be fed and lodged for $10 a month.

"A paramount reason for locating the University at Gainesville is the warm, not to say enthusiastic support that would be given it in all quarters of the State by the hundreds of graduates of the East Florida Seminary, who are to be found in every town and city, who cherish a warm feeling for Gainesville and who, being men of standing and influence in the communities in which they reside, will exert an invaluable influence in behalf of the University.

"All this, to say nothing of the fact that South Florida, by reason of paying more than half the taxes of the State, is entitled as a matter of simple justice to have at least this one institution located in accordance with her wishes and interests.

"The Herald has no injurious reflection to make upon any other town in the State; in fact it knows nothing derogatory to any other aspirant. It urges the selection of Gainesville simply because it knows that city to be an ideal location for the University and because it is a matter of right and justice to South Florida.

"If it should be asked what is to be done with the buildings at Lake City, it may be answered that the State can put them to valuable use, but this is a question to be decided by the board of control, which, under the Buckman bill, will have plenary powers."

POOR HOPE FOR PEACE.

If President Roosevelt can promote peace between Russia and Japan no one will begrudge him the credit he will gain by helping to stop the terrific human slaughter which has characterized the Russo-Japanese war. There are many diplomats who believe all the President's efforts, however well intentioned, will come to naught, however. Count Cassini has outlined the position of Russia to a few chosen friends. He maintains that Russia has nothing more to lose. If she were to make peace now she would have to yield the neutrality of Manchuria, acknowledge Japan's suzerainty of Corea, grant the neutrality of Vladivostok and pay an enormous indemnity besides. If Russia continues to fight Japan may, in the course of time, drive her from Manchuria, capture Vladivostok and be in a position to insist on her suzerainty of Corea, but by the time all this has been accomplished by brute force, Japan's financial resources will have been exhausted and she will have to quit fighting without any indemnity whatever. Of course the humanitarian side of the argument has no force with Russia. Her moujiks, or peasants, are cheap and a few hundred thousand, more or less, are of no moment to the Czar and the war party which dominates his actions.

Count Cassini, for obvious reasons, does not state that Russia is afraid to quit fighting or to accept peace at the humiliating terms which Japan would prescribe. Russia, that is, her grand dukes, fear the officers who would return from Manchuria and Siberia, and perhaps the men. They have learned too much of the oligarchy which has furnished them cheap ammunition, worthless guns, rotten food, etc., and has grown rich by the transactions and the grand dukes appreciate that the coming home of the troops means their own doom.

TO OUR BUSINESS MEN.

We desire to call the attention of our business men to The Twice-a-Week Sun, which has a circulation of upwards of 1,800 copies in Alachua county, and to inform them that there is no better way to let the people know of their bargains than by placing an advertisement in its columns. The best results are sure to follow, and when you consider that the paper reaches these people twice every week, the rates are very reasonable.

The Sun will certainly pay anyone who has something to sell that the people want.

The demand for competing lines of railroads in Florida are being gratified every year, and the prospects of three roads to Miami will be sure of increasing the already lively aspect of that thriving city. No more enterprising business men are to be found in the State than are to be noticed hustling for trade through the advertising columns of its three daily papers.

If the Panama Commission would only start an order and admit the people to membership, we might all buy on the co-operative plan and avoid the tariff.

The reason Rojestvensky didn't send the usual "I regret to report that" message to the Czar, was that there were no blanks left to send them on.

The Georgia Railway Commission has decided to not cut the passenger fares, and the old rate will hold at three cents a mile.

Vice-President Fairbanks took just 17 minutes to thaw out when it came to opening the Portland Exposition.

GAINESVILLE AND THE STATE UNIVERSITY.

We agree with The Tampa Tribune that Gainesville is the place for the State University.—Levy County Advocate.

You people of Gainesville must stop looking sick and worrying over these things. You've got the town and with a little cold backbone you can get the State University.—Levy County Advocate.

Gainesville is early in the struggle to secure the State University and, if we except Pensacola, there is probably no better point in the State at which to locate that institution.—Pensacola Daily News.

A suggestion: Put the University at Gainesville, the insane asylum at Lake City, the negro normal and the girls' college at Tallahassee and the institute for the deaf, dumb and blind at Bartow.—Punta Gorda Herald.

The location of the new University and the Female College is a question of considerable interest in the State at present. Nearly every town of any size is endeavoring to secure the University. Gainesville is making special effort and is sending throughout the State a little folder giving five good reasons why Gainesville should be chosen, and there seems to be a good deal of sentiment in different parts of the State in favor of Gainesville.—Dunnellon Advocate.

Gainesville is at present exemplifying her long established reputation for unity in educational matters. Her citizens are diligently at work—and they stand as one man—to secure the location of the University of Florida provided for in the Buckman bill passed by the last session of the Legislature. Because of her splendid religious and moral standing, her central and healthful location and her enthusiastic educational sentiment, Gainesville in her contest for the University has the high endorsement and best wishes of hundreds of the leading citizens of Florida, and if she shall win no one who is at all acquainted with the conditions can doubt that a long step has been taken toward the subservance of the best interests of the State in its educational matters.—Bradford County Telegraph.

The Chicago labor war is certainly giving a lot of worthless walking delegates a good living off the unions.

The Tampa fair is now the thing. Let all unite on making it worthy of the great State of Florida.

The watermelon season is now upon us, and farmers are hauling some fine ones to market.

The result looks as if Pensacola was dreaming of Bliss.

Melrose, June 10.—Mr. and Mrs. L. Baldwin left Thursday for a visit to Aiken and other points in South Carolina.

Miss S. Ward of Barnesville, Ga., is a new guest at the Huffman House

Mrs. P. M. Yearwood and family have gone to spend the summer at Mt. Airy, Georgia.

Miss Alice Barnett has arrived from Jacksonville for a short visit.

In honor of Nora Mullin's thirteenth birthday quite a party of children were invited to celebrate the occasion on Wednesday afternoon. The parlor was prettily decorated with flowers, flags and Japanese lanterns, and on a table were displayed the many presents received. The time was pleasantly passed with games and music until the delicious refreshments were served, to which the guests did ample justice.

JOTTINGS FROM JUDSON.

A Picnic Crowd—Crops Doing Well, Considering Drouth—Other Notes.

Judson, June 10.—Miss Lou Davis of Jacksonville is home visiting her mother, Mrs. E. E. Davis.

Rev. S. W. Sheffield and family, and Mrs. J. N. Wood and others of Judson, are attending the picnic today at Levyville. They anticipate a pleasant time.

Mr. and Mrs. W. H. Tucker and about fifteen or twenty other Newberry citizens are at Manette Springs, on the Suwannee river, this week, having a pleasant outing, fishing and squirrel hunting.

Emory Kidd has gone to Tylerville to work.

The farmers have laid-by their corn crops, which are very promising, although are needing rain very badly. The cotton crop is as fine for the time of year as we ever saw. The farmers are talking of quitting raising cotton here, as the prices are so unsatisfactory. They are talking of raising cantaloupes and watermelons, provided they can get the Jacksonville & Southwestern Railway or the Cummer Lumber Company to put in a branch railroad from Tyler or Trenton. Mr. Steckert of the Cummer Company says his company will put in a branch road and carry off our watermelons and cantaloupes.

Tax on Babies.

Extreme hot weather is a great tax upon the digestive power of babies. When puny and feeble they should be given a few doses of White's Cream Vermifuge, the children's tonic. It will stimulate and facilitate the digestion of their food, so that they soon become strong, healthy and active. Sold by W. M. Johnson.

One of the Best.

The Gainesville Daily Sun is one of the best papers in the State. It is newsy, well printed and is doing a great work for that section of the State. The Sun should receive the patronage of every business man there, as it is a credit to the town.—Orange County Reporter.

The Sun always appreciates such kindly notices, and when they emanate from such a thorough newspaper man as the editor of The Reporter, they are indeed very gratifying.

Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon, as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by all druggists.

London, June 10.—This was the last day of King Alfonso's stay in London. He leaves here early tomorrow for Spain. NOW IS THE TIME TO PAINT.

Important Memorandum.... The paint is the most important factor in painting. A gal. comprises, these days, a good painter, with the best quality of paint, covering say 300 00 (300 00 sqrs). will use 5 gals. This same paint applied by a dauber (300 00 sqrs. 300 00 paint), will last only two years. Thus the "pay-your-own" of the good painter's job is $12.00—the poor painter's $30.00

'Above all, USE GOOD PAINT!

The oil! linseed oil! Just pure linseed is the "life"—the one great requisite of good paint for which there is no substitute—and the *sure* way to get the pure, fresh linseed oil is to buy the oil and

separately. *For every gallon of Kinloch Paint buy one gallon of linseed oil.* This makes two gallons of paint, ready for use. You then *know* that the paint you're putting on your house is alive—"the genuine oil is in it," and paint is not paint unless it contains 50% of really pure oil. We will further explain the virtues of Kinloch Paint if you will call and see us.

PHYSICIAN SHOT TO DEATH.

Duel Between Doctor and Town Marshal Ends Fatally.

Columbus, Ga., June 10.—Dr. Jno. C. Hardy, aged about 35 years, a well known physician of Chipley, Ga., was shot to death there in the store of S. A. Goodman, mayor of the town, by Olin White, the marshal of Chipley.

Early in the morning Dr. Hardy publicly horsewhipped in front of the livery stables at Chipley an old white man who had offended him. A case was made against him. At noon Dr. Hardy walked in Goodman's store, pulled out his pistol and asked the mayor how much he was going to fine him.

In the conversation he called the mayor a liar. Marshal White was in the store, and when he started to interfere Hardy began shooting. Both he and the marshal fired three shots. When the smoke cleared Dr. Hardy was dead, having been shot through the body and through the head, his brains spattering the floor.

Mayor Goodman had been shot through the left arm and the bone shattered near the wrist, and Marshal White was uninjured, although two bullet had passed through his clothing.

Dr. Hardy leaves a widow and two or three children.

OBESITY A DISEASE.

Vigorous Measures For Its Removal Should Be Taken.

At middle age certain organs lose functional activity and shrink and waste away, demanding less blood and nerve energy. This decreased need for nutrition, if not heeded, will result in taking into the body more food than can be oxidized and used either to build up tissue or for the generation of heat and energy. The result is kidneys, liver and other excretory organs are overworked in the effort to remove the body wastes and become diseased, says a writer in the Housekeeper. Then nature stores up this foul material in the form of fat in all the lymph spaces, between the fibers of the muscles and in every other odd corner in the body where it can be stowed away. In time this lifeless, useless structure of fat crowds out muscle, gland and other normal tissues and takes their place. This is what is known as fatty degeneration and always shortens life, ending often in sudden death from heart failure, apoplexy, diabetes or kidney disorders.

The prevention of obesity means regulation of diet, especially in middle life and when changing from an active out of door occupation to a sedentary indoor life. Often the amount of food should be cut down from one-fourth to one-half, especially avoiding fats and sweets, also soft foods, which tend to gormandizing from deficient mastication and too hasty eating. No wine, beer or alcoholic drink or tea or coffee should be used. At meals even the use of water should be restricted. Exercise should be taken in the open air and deep breathing practiced to increase the intake of oxygen and burn up and oxidize bodily toxic matter.

For those women who are overstout, yet retain a fair amount of physical vigor, the day should begin with a cold bath, plunge, spray, cold towel rub or sponge bath, after which should be taken active exercise in the form of work, either in the open air or in a well ventilated room, horseback riding, bicycling or a brisk walk for an hour or more. Exercise in a well ventilated gymnasium may be substituted for the out of door, but is not so effective and invigorating.

POINTED PARAGRAPHS.

A girl is never going to go very far wrong who is a good chum of her father and brothers.

There is a family in every neighborhood which furnishes amusement for the rest and doesn't know it.

Every one has had more happy days in his life than wretched ones, but how he lets the wretched ones stand out!

There are so many operations of late that a man can become distinguished by arriving in heaven all in one piece.

One great trouble in life is that the paths for going wrong are planted so prettily with flowers at the beginning.

Occasionally a disagreeable person will boast that at least he is sincere, but that is no excuse for being disagreeable.

Three things you never discover till there is death in the house: The goodness of the neighbors, the way time drags and how loud the clock ticks.—Atchison Globe.

After the Honeymoon.

He—We must try to keep up appearances. I suppose you don't want our friends to know that our marriage has been a failure? She—Oh, no. I wouldn't like to have them see that their anticipations have been realized.—New York Sun.

Much as worthy friends add to the pleasure and value of life, we must in the main depend on ourselves, and every one is his own best friend or worst enemy.

AN AMATEUR DETECTIVE.

His First and Last Experience In Tracing a Crime.

"I never attempted the Sherlock Holmes business but once," said Blythe, "and although I ran down the person I was after the results were not at all pleasant. One morning I missed a scarfpin, a single pearl, worth about $50. I valued it more for its associations than almost anything else I had, I decided to say nothing about it to my wife, because things of that sort always upset her. She suspects the servants and does not hesitate to let them see it. Advertising a reward brought no results. One morning nearly two years after the pin was lost I saw it in the window of a pawnshop not three blocks from my home. I knew the police captain of the precinct and induced him to send one of his ward men with me to the pawnshop. Matters were soon explained. I was able to prove my ownership of the pin. The pawnbroker consulted his books.

"That pin," he said, "was brought here by a woman who regularly pawns things here on commission. It is a business, the same as shopping on commission. Many persons, especially women, who find it necessary to raise a little money in a hurry, are afraid to go in person to the pawnshop.

"He gave me the name and address of the woman who pawned my pin, and I looked her up. 'I don't want to make any trouble for you,' I said, 'but that pin was stolen. Just take me to the person who gave it to you to pawn, and you'll not be the loser.'

"She complied willingly. She said she was sent for by a woman who had read her advertisement and was given the pin to pawn in the usual course of business. She got $20 for it, and after deducting her commission had paid the money over to her customer and given her the ticket. She went to the pawnshop nearest the house to save time. Not until we were at my own doorstep did I realize where the woman was taking me.

"'Do you mean to say that you got the pin in this house?' I inquired.

"'Certainly,' she replied. 'It was given to me by a tall woman with red hair. If she still lives here I should know her in a minute.'

"'That will do,' I said. 'Here is $5 for your trouble. I shall be obliged by your not mentioning this incident to anybody.'

"The woman she had described was my wife. We had a bad quarter of an hour. She had pawned the pin to get money for a rascallion of a brother, who had since fled to Canada. He stole the ticket from her and had evidently been unable to sell it before he skipped. And the poor woman had been living in mental torture for months because she was afraid to tell me. That experience cured me of a hankering for the detective business."—New York Times.

A Thousand Dollars' Worth of Good.

"I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pain," says A. H. Thurnes, a well known coal operator of Buffalo, O. "I got no relief from medicine until I began taking Foley's Kidney Cure; then the result was surprising. A few doses started the brick-dust-like substance and now I have no pain across my kidneys and I feel like a new man. It has done me $1,000 worth of good." Foley's Kidney Cure will cure every form of kidney or bladder disease. J. W. McCollum & Co.

Why, Then?

"Did you finish your shopping today, my dear?" asks the model husband.

"Yes, I think so," answers the trusting wife.

"You think so?"

"Yes. I don't know, though. You see, I went to get my hat and there were so many and all of them so pretty that I got five of them."

"Five? Why did you do that?"

"I—really—I must have lost my head."

"In that case, why get a hat at all?"—Chicago Tribune.

Rules For Writers.

Frederick W. Seward said that when he first started in at newspaper work Thurlow Weed said to him: "I will give you two rules to begin with. First, never write anything without some definite point and purpose; second, when you have written it, take your pen and go over it to see how many words and sentences you can strike out and how much you will thereby improve the article."

Huge Task.

It was a huge task to undertake the cure of such a bad case of kidney disease as that of C. F. Collier of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, headache, and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach." Guaranteed by all druggists; price 50c.
